EDUCATION

Bachelor of Science in ICT

Amoud University

2022 – 2026

CORE SKILLS

DATA ADMINISTRATION

Database Design & Management

Database Security & User manage

Maintenance and monitoring

Backup & Restore

Data Migration

Database Performance & Optimization

Data Integrity & Validation

DATA ANALYSIS

SQL

Python (Pandas, NumPy)

Power BI (DAX, Data Modeling)

Excel

Data Cleaning & Transformation

Data Visualization & Reporting

KPI & Business Analysis

LANGUAGES

Somali: Native

English: Professional Working

Proficiency

(Written & Spoken)

SAMATAR ABDIRAHMAN ALI

DATA ADMINISTRATOR | DATA ANALYST

PROFESSIONAL SUMMARY

ICT graduate specializing in Data Administration and Data Analysis, with practical project experience in SQL Server, Python, Excel, and Power BI. Skilled in database management, data validation, data cleaning, reporting, and business intelligence. Able to transform raw data into accurate reports and actionable insights to support data-driven decision making.

EXPERIENCE

Data Administrator & Data Analyst

Personal Project

- Designed and managed relational databases using Microsoft SQL Server.
- Developed SQL queries, stored procedures, and database solutions for data management and reporting.
- Cleaned, validated, and transformed datasets using SQL and Python.
- Developed interactive Power BI dashboards and DAX measures to analyze business performance and KPIs.
- Prepared data and reports to support data-driven business decisions.

Construction Project Data Analysis

Personal Project

- Analyzed construction project data using SQL Server and Power BI.
- Analyzed project budgets, expenses, payments, and financial performance.
- Developed Power BI dashboards to monitor project KPIs, budget performance, and expenses.
- Created DAX measures for financial analysis and project performance reporting.

Data Collection - BAHDA

Borama, Somaliland

- Participated in data collection for the BAHDA project conducted in Borama.
- Collected and recorded field data using KoboToolbox.
- Ensured accurate and complete data entry during the data collection process.
- Reviewed collected data for consistency, completeness, and quality.
- Supported the organization and preparation of collected data for further analysis.

Data Analyst Intern

Amal Bank

- Supported data analysis and reporting activities during the internship.
- Collected, cleaned, and organized data for analysis and reporting.
- Used SQL and Excel to analyze datasets and generate useful insights.
- Prepared reports and summaries to support business and operational decision-making.
- Assisted in maintaining data accuracy and consistency across datasets.

TOOLS & TECHNOLOGIES

Microsoft SQL Server (SSMS) • Power BI • Python • Pandas • NumPy • Microsoft Excel • Jupyter Notebook • Git & GitHub
